

# CAP Facts

The Computer/Electronic Accommodations Program  
Office of the Assistant Secretary of Defense (Health Affairs)

Providing **real solutions for real needs** is the mission of the Computer/Electronic Accommodations Program (CAP) to ensure people with disabilities and wounded service members have equal access to the information environment and opportunities in the Federal government. CAP is working to remove barriers to federal employment opportunities by eliminating the costs of assistive technology.

## CAP Customers

CAP provides free assistive technology and services to federal employees with disabilities, wounded service members, federal managers, supervisors, and IT professionals, increasing employment opportunities and access to the information technology environment in the United States and abroad.

## CAP Services

If you have a disability and are employed by a component of the Department of Defense (DoD), or one of the federal agencies that has a partnership with CAP, you are eligible for CAP services. CAP provides:

- Assistive technology to increase access to the computer and telecommunications environment
- Individualized needs assessments
- Demonstration and evaluation of assistive technology
- Installation, integration and training
- Disability education and awareness
- Section 508 training

## CAP Technology Evaluation Center

In order to support the CAP mission to provide assistive technology and related accommodations, the CAP Technology Evaluation Center (CAPTEC) was developed as a demonstration and assessment facility. Located at the Pentagon, CAPTEC contains computer workstations equipped with a wide variety of equipment designed to accommodate persons with disabilities. People seeking solutions to accessibility challenges can visit CAPTEC to see the assistive technology, compare different solutions, and ensure that the equipment will be compatible with their current computer and/or telecommunications environment.

Managers and supervisors can learn how assistive technology enables people with disabilities to become or remain valuable employees. For those unable to visit CAPTEC in person, needs assessments and technology demonstrations can be conducted via Video Teleconference (VTC). To schedule an appointment, visit the CAPTEC website at [www.tricare.mil/cap/acc\\_sol/CAPTEC\\_Appointments.cfm](http://www.tricare.mil/cap/acc_sol/CAPTEC_Appointments.cfm).
